

## ELEVATE YOUR OPERATIONS WITH SERVCORP SCx

Strategic Operations | Global Logistics | Critical Supply Solutions

### WHO WE ARE ■

SCx (formerly RZ Service Group) is a veteran-owned strategic operations firm specializing in federal logistics, secure material supply, global supply chain management, and facility modernization.

We deliver mission-critical support to government agencies, prime contractors, and industry leaders who demand precision, speed, and operational excellence at every stage.

### OUR MISSION ■

To deliver precision-driven, agile, and integrated logistics, supply chain, and operational solutions that advance national security, critical infrastructure, and global missions — executed with unwavering integrity, strategic excellence, and a relentless commitment to success.

### OUR VISION ■

To set the standard for next-generation logistics, supply chain management, and operational support — delivering strategic, technology-driven solutions that empower our partners to excel in a dynamic and demanding global environment.

### WHAT SETS US APART ■

- **Unmatched Expertise in Strategic Logistics and Technology Integration**  
Handling complex logistics and operational needs with accuracy, speed, and advanced system integration.
- **Tailored Solutions Across Government and Industry**  
Delivering customized solutions for federal agencies and private sector leaders, ensuring every mission's success.
- **Innovation at the Core**  
Leveraging automation, robotics, real-time inventory, and secure systems to drive operational resilience and modernization.

## CORE CAPABILITIES ■

### Strategic Base Operations Support (BOSS)

Comprehensive operational services for facilities and critical infrastructure, including facility management, warehouse operations, logistics coordination, and life-support services.

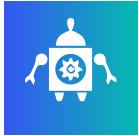

### Global Supply Chain & Logistics Solutions

Integrated solutions from global sourcing to warehouse distribution, inventory management, and supply chain optimization.

### Critical Material Supply Solutions

Supplying mission-essential infrastructure materials — waterworks, plumbing, HVAC, PVF (Pipe, Valve, Fitting), and MRO — with rapid, reliable sourcing and delivery.

### Advanced Automation and Logistics Technology Integration

Deploying cutting-edge automation and robotics solutions to streamline operational processes, enhance efficiency, and ensure future-readiness.

## GOVERNMENT SERVICES EXPERTISE ■

- Integrated Logistics and Supply Chain Management
- Base Operations Support (BOSS)
- Inventory Management and Stock Readiness
- Facility Management and Modernization
- Critical Material Supply and MRO Solutions
- Federal Compliance and Procurement Support

## COMMERCIAL SERVICES EXPERTISE ■

- Infrastructure Material Supply (Waterworks, HVAC, PVF)
- Supply Chain Management and Warehouse Operations
- Logistics Modernization and Efficiency Optimization
- MRO and Facilities Support Solutions
